

FlexWatt by UniTherm is a blanket enclosure that provides freeze protection for applications vulnerable to harsh cold conditions. Forget band heaters and warming ovens - FlexWatt provides consistent, controlled heat in an easy to apply, removable, reusable blanket.

## Features & Benefits

- » Superior freeze protection
- » Turn-key operation
- » Removable & reusable
- » No tools needed
- » Easy on & off
- » Product longevity
- » One-piece design
- » Manufactured in the U.S.A.

## Standard Applications

- » Valves - 3", 4"
- » Pipe - 3", 4" diameter. 2', 3', 4' lengths
- » 12v, 24v, 110v
- » Tanks, totes
- » Barrels, drums
- » Buckets

## Custom Applications

FlexWatt jackets can be custom manufactured to fit any pipe, valve, tanks, tote, barrels, drums, buckets, or other piece of equipment that needs freeze protection. Jackets are available either with or without heat-trace and heat-trace jackets have the option of a thermostat.
